

## BUILDER AWARDS

Builder is a person or company who builds, contracts for & supervises the construction of buildings.

Real estate market in India is on upswing and builders in India are investing in almost all parts of the country. Luxurious apartments, premium quality flats, independent homes, farm houses, pent houses are some of the projects which are getting a lot of importance in the residential sector. New constructions in this field are experiencing phenomenal growth. Builders or property developers are buying plots in large number for construction of townships & residential complexes.

Apart from this construction in commercial sector is also on the rise. Shopping malls, shops, big corporate offices, multiplex/halls, amusement and recreational parks etc are attracting investments from builders in India. Property developers in metropolitan cities are expanding their vision and investing in smaller cities also.

IAD Awards 2010 gives opportunity to all builders who are building our NATION to show there qualities at national and international Levels.

IAD Awards 2010 committee Invites entries in different Builders categories for their participation in 3rd Annual IAD Awards.
